CIRCUIT COURT.

Regular Term Began Last Monday, With Judge Hannah Presiding.

The spring term of the Lawrence Circuit Court began on Monday last, April 14, with Judge J. B. Hannah presiding. John M. Waugh, Commonwealth's Attorney, was present at the opening of court, alert and faithful in the discharge of the duties of his responsible position. As usual, the first business of the court was the impaneling of the grand jury, the Big Dozen, to whom is entrusted the grave and important duty of making thorough and impartial inquiry into the condition of the county as regards the commission of high crimes and misdemeanors. The inquisitors for the present term are men above the average so far as citizenship and intelligence are concerned, as may be seen by reading the names.

Grand Jury.
Joe B. Preston Foreman, J. Q. Lackey, N. A. George, G. L. Burk, R. B. Spencer, J. H. Hillman, J. K. Compton, Wm. Cary, Lewis Bennett, W. O. B. Dixon, J. A. Waldeck and M. S. Moore.

Judge Hannah did not consume much time in giving his charge to the jury. Many of the members were "old timers," so to speak, men who know what it requires to take to make an indictment. The judge made a strong charge, but not along any specific lines.

The next duty was the calling and impaneling of the petit jury to serve during the term.

Petit Jury.
Garred Hammond, Oscar Graham, J. H. Ratcliff, John Maxey, Thomas Ash, Mark Duly, Floyd Ogle, W. N. Sullivan, Z. T. Webb, L. T. Boggs, Greene Berry, L. B. Alley, Lindsey Webb, Chas. F. Peters, Jno. Bentley, W. C. Kitchen, C. C. Hays, Geo. Eickelmeier, Sam See, Isaac Cunningham, John B. Spencer, Harmon Blackburn, O. L. Curnutte and T. B. Billups.

The formation of the juries having been accomplished the trial of cases on the commonwealth's docket began and has proceeded all the week. The trial of any and all cases of note, if any there will be duly noted in these columns.

It seems to those who have watched the conditions of things for many years that the gladness and the glory, the joy but not the justice of the old time courts have gone glimmering. Then the time of "big court" was long enjoyed in anticipation, and anybody could tell you exactly when the opening day would come. Now, to know when a court term issue one must consult a court directory or ask the clerk. Then, too, many idlers attended court in the hope of being "one's self on a jury or 'coughing' one's self on."

(Cough.) The sheriff would look in the direction from which the cough came, and when he caught the eye of the cougher that man stood a pretty fair chance of getting on a jury. But the impartial wheel has done away with most of this, and, well, it's greatly for the better.

The first three days of the session were taken up with the trial of the usual misdemeanors—pistol toting, breaches of the peace and other things. None of these was of importance sufficient to merit special mention. On Thursday the consideration of felony cases began. The cases against J. W. Harris, of Gallup, charged with unlawfully cutting and carrying away timber, were all filed away. The cases against Harry Loner, charged with defacing saw logs, were set for Tuesday next with Judge A. J. Kirk as special judge to try.

The case against Tobe Wiley, of Paintsville, charged with obtaining money by false pretense, was called and set for Tuesday next. The cases of Bonier Baker, charged with housebreaking, and of David Berry for obtaining money under false pretenses were set for Thursday.

In the case against William Hammond, Harrison Kitchen and Charles Adams, charged with shooting at Sam Bartram, Hammond was discharged and the other defendants were tried Thursday, the jury getting the case about 2 p. m. At this writing a verdict had not been returned. These parties were found by Bartram in his melon patch on the Point and were fired at by him. They are charged with returning the fire. LATER:—The jury disagreed and was discharged.

The grand jury up to date has returned five indictments. So far but few nonresident attorneys have been present. Among them were D. J. Wheeler, of Paintsville, Jno. Woods of Ashland and M. C. Kirk, of Inez.

Congressman Hughes At Home.
Congressman James A. Hughes, who had been critically ill in Washington for several weeks, has returned to Huntington, somewhat improved. He will not return to the Capital until his health is fully restored.

DEATH OF MRS. CLARK.

Mrs. Daisy Westlake Clark, whose critical illness caused by uremia following the birth of a stillborn child was noted in this paper last week, died about 7:00 p. m. Thursday last. She was buried in the Fulkerson cemetery on Friday afternoon. Funeral services were held at her late residence, conducted by Revs. C. B. Plummer, of the Methodist Church, and L. M. Copley, who preached a very appropriate sermon, addressed mainly to the living. The funeral was very largely attended.

Mrs. Clark was 43 years old and was born in this city. She was the daughter of Lydia and the late Lewis Atkins. She was married twice, and is survived by her second husband, William Clark. Her first husband was E. R. Westlake, by whom she had a son, Ernest Westlake, who operates the linotype machine in the NEWS office. One child was born to the union with Mr. Clark, a girl who died in August last at the age of two years.

The deceased is survived by her mother, two sisters—Mrs. J. A. Shannon, of Central City, and Mrs. John Wellman, of Louisa, and two brothers—George and Ora Atkins, of this city.

Quite early in life Mrs. Clark united with the M. E. Church and continued in that relation until her death. While not a demonstrative woman those who knew her best have every reason to believe that the faith she professed in her youth remained with her and gained for her an entrance into the home of the blest.

Mrs. Clark was a good wife, daughter, mother and sister. Those to whom she was connected by these ties will ever hold her in affectionate regard.

SPECIAL NOTICE.

Communications intended to promote the candidacy of any aspirant to office will not be published in the NEWS unless prepaid for at the rate of one cent a word. It will be easily seen that if such notices were admitted to these columns free of charge there would be room for but little else. This notice applies to all, irrespective of party or person.

Correspondents will please observe this rule, as nothing they say in their letters concerning any candidate will be allowed to appear.

DENIAL OF REPORT.

Manager at Jenkins Says No Break of Dam Was Imminent.

The following courteous communication is self-explanatory.

Jenkins, Ky., April 18, 1913.
MR. M. F. CONLEY, Editor,
Big Sandy News,
Louisia, Kentucky.

Dear Sir:—
On March 17th, the management of the Elkhorn Division was transferred from Mr. J. G. Smyth to the writer. Having only a slight acquaintance in this section of the country previous to this time, I have been devoting much of my time to extending this acquaintance and I find the medium of the Big Sandy News has been a great assistance. A number of our employees at Jenkins are on your subscription list, and I have been fortunate enough to see the last few copies sent to Jenkins, through some of these subscribers.

The article entitled "The Menace of Elkhorn Creek," in "Pike County News" of your last edition, attracted my attention, and I should like to refer to it briefly. During the heavy rain of Wednesday night, March 26th, the Elkhorn Dam, referred to, received a very severe test. At the time the Dam was designed our Engineers sought the advice of Government engineers, and the design is in excess of their recommended dimensions for weight and thickness. On the night in question, the waters rose so rapidly that the spillway of the Dam was unable to take care of the flow, and the water spread over the entire crest of the Dam to the depth of possibly six inches. The Dam itself showed no effect of the strain whatever, and the water was well confined below the Dam, until the flow joined the waters of the so called "Big Elkhorn Creek," which were similarly swollen by the heavy rain. This great amount of surface water then filled the main Elkhorn Creek below the branch so that the elevation of the water in the large creek was higher than the basement of the Consolidation Coal Company's store, at the point where it flows past the store basement surface water drains until the water had reached an elevation of twenty-four inches in the store basement. When the store watchman noticed the water rising in the basement, he asked the Power Plant engineer to blow the whistle and arouse enough men to help him carry the goods stored in the basement to the floor above. This signal accomplished its purpose and the store loss was light, due to prompt action in removing the goods. But there seems to have been an impression, which reached the columns of your paper, that a serious

catastrophe had occurred. No damage was caused in Jenkins other than that mentioned above, and to the best of the writer's knowledge, nobody had any fear for the safety of the Dam, which impounds the water to a depth of only thirty-five feet. The Power Plant, located immediately below the Dam, operated continuously, and business resumed at Jenkins at six o'clock the following morning as usual. A few of our residents about two miles down Elkhorn Creek were frightened by the heavy rains and rise in the creek, but I have not heard an expression along the lines of your article from anybody.

It is evident that you were misinformed in this matter, and realizing that you were not in position to get in touch with us and learn the facts, because of the effect of the storm on both telegraph and telephone circuits, I am writing you the account as above. Please state your correspondent was completely ignorant of the true situation, and that neither you nor your correspondent intended to maliciously publish a story to discredit the Consolidation Coal Company or its employees.

I will deem it a pleasure to demonstrate to you what we are doing at Jenkins, if you ever feel that you have an opportunity to visit us.

Yours very truly,
E. DRENNEN, Mgr.

WIN A GOLD MEDAL.

A gold medal to the school boy or girl between the ages of 10 and 15 who writes the best composition, not to exceed 800 words, on the repair and maintenance of earth roads, is to be awarded by Logan Waller Page, Director, Office of Public Roads, United States Department of Agriculture, Washington, D. C. All compositions must be submitted to Mr. Page before May 15, '13, and the medal will be awarded as soon thereafter as the compositions can be graded. The compositions may be based on knowledge gained from books or other sources, but no quotations should be made.

After many years' experience in dealing with the public road situation of the country, it is Mr. Page's belief that ignorance on the subject of repair and maintenance of road is as much the cause of their bad conditions as any other one factor. It is expected that the competition will bring about a better understanding of the subject of repair and maintenance in the rural districts.

Many children living in the rural districts have experienced the disadvantages of roads made impassable through a lack of proper maintenance and it is expected that their interest in the competition will stimulate greater interest among the parents. Bad roads have prevented many children from obtaining a proper education and have even prevented doctors from reaching the side of rural patients in time to save their lives.

Any child between the ages mentioned, attending a country school, may compete. Only one side of the paper must be written on; each page should be numbered; the name and address of the writer, and the name and location of the school which he or she is attending must be plainly written at the top of the first page. The announcement of the competition has been sent to the superintendents of schools in the rural districts. No further information can be obtained from the Office of Public Roads. This announcement should be plain to everyone, and all children will thus start on a basis of equality.

A GOOD DIRECTORY.

The latest directory issued by the Chesapeake and Potomac Telephone Co., for this section is a very complete one. It embraces the Huntington, Kenova, Logan, W. Va., Louisa, Paintsville and Prestonsburg districts, and is also a directory for Proctorsville, O., Davis Creek and Four Pole, Kenova, Denver, Flat Gap, Hippo and Laynesville, Ky.

Important Association Notice.

Teachers who expect to attend the meeting of the Kentucky Educational Association at Louisville, will take notice that reduced rate tickets will be sold only on April 28, 29 and 30, and are valid returning up to May 6.

Partners in Contest Business.

W. C. Potts, who successfully conducted the Big Sandy News contest, has formed a partnership with Brad Chaffin, of this city and the firm will manage newspaper contests in various parts of the country. They already have several engagements, one of which is at Somerset, this State, where they now are.

In Jail Awaiting Trial.

Another chapter in the story of the Adkins-Savage affray noted in the NEWS last week is Adkins' arrest on a charge of assault with intent to kill. This followed his release on bail pending a trial for a less offense. He was brought before County Judge Boggs on Saturday last and waived an examination and was committed to jail to answer at the present term of the circuit court.

500-BARREL WELL.

Morgan County's Oil Field Shows Up With Another Gusher.

The gas well recently drilled in near Kermit, W. Va., by the company composed of Watson, Stewart, etc., is estimated to be good for five million feet per day.

500 Barrel Well.
Another well completed at Cannel City, Morgan county, came in 500 barrels per day. The Ohio Fuel company completed a well some distance away from the town that is estimated all the way from 25 to 75 barrels per day.

The test well recently drilled to the Berea sand on Mill creek by the Ohio Fuel Oil company was dry. The company has decided to drill it to a depth of about 3000 feet. This well is about three miles east of Louisa, a section not heretofore tested.

The well on the Lackey place has been abandoned as unprofitable.

The owners of O'Brien well No. 1, on Three Mile, are negotiating for a pipe line connection. If a line is secured they will put the well to pumping at once.

N. AND W. ELECTRIFICATION.

President L. E. Johnson, of the Norfolk and Western, is authority for the statement that the road is arranging to electrify its line from Eckman to Bluefield, which is 27 miles through a mountainous district. Negotiations are in progress with the Appalachian Power Co., to supply power. The electrification of this part of the road is in line with modern railroad practice, which uses electric power for getting heavy loads over stiff grades. The Appalachian Company has its distribution systems near the N. and W. right of way.

DEEPLY APPRECIATIVE.

The people of this city will ever have a warm spot in their hearts for the Big Sandy valley, as Paintsville, Pikeville, Louisa and Van Lear each unsolicited sent a separate load of supplies, including hardboiled eggs, pies, cakes and everything they could themselves possibly prepare and they will be glad to learn through this medium that the cargo was deeply appreciated and was immediately distributed to those in need. Harold also sent a large box.

—Catlettsburg dept.—Independent.

USE THE SPLIT-LOG DRAG.

Whenever the split-log drag has been used on the dirt roads it has been pronounced the best method yet for working them. Why don't you farmers try it? You can make one in two hours time and at an expense of about 25 cents, and by using it about two hours in each month can keep the roads around your farm in splendid condition. Try it, and see how easy it is to keep your dirt roads in good condition.

OF A DIFFERENT KIND.

It is said that a camel has a stomach that will hold enough water to last two or three weeks. Several "camels" were in this city during court time, judging from the odor the came from various breaths. Or the liquid might have been brought in trunks not carried by that other animal, the elephant. The liquid referred to was the sort that the editor of the Flemingsburg Times-Democrat calls murder juice.

DIED FROM BITE OF CAT.

Charles McCoy, a small boy who lived in Catlettsburg, was bitten by a mad cat at a short time ago and was sent to the Pasteur Institute for treatment, where he died last week. Two other children who were bitten at the same time the McCoy boy was attacked, have recovered.

GONE TO VIRGINIA.

The Rev. Charles E. Cruse went to Virginia, last Saturday by way of Washington and Baltimore. Mrs. Cruse accompanied him as far as Ashland and returned in the evening.

AWARDED HONORS.

Company E, Second Regiment of Salyersville, won first honors in the 1912 rifle contest and Company D, Whitesburg, won second honors. The Adjutant General Department awarded them a national defense trophy which they will retain one year.

A CARD OF THANKS.

The husband, son, mother, brothers and sisters of Mrs. Daisy Clark, deceased, desire to extend their heartfelt thanks to neighbors and other friends who so kindly assisted them in their recent bereavement. Their generous sympathy and helpfulness will never be forgotten.

THE MARTINS WERE NOT LOST.

During the recent flood Jas. McGuire, of Two Mile, received the news that two relatives, John and James Martin, whom he had reared from childhood, had, with their families, been drowned at Hamilton, O., where they lived. The report of their death was not true, although it seemed well founded. The two men and their families were saved, but their escape from watery graves was narrow and thrilling. When Hamilton became inundated James Martin and his family walked two miles to a little town called Trenton, where they found refuge in a church. Here they were cut off from the rest of the world and for three days and nights were without food and water but were finally rescued and taken to Cincinnati.

Entertained For The Arnolds.

On last Saturday evening Mrs. L. S. Johnson entertained very handsomely in honor of her relatives and guests, Mrs. and Miss Arnold, of Columbus, O. The reception was very numerous attended, there being eight tables of four-handed flitch, with several guests who seemed to prefer the game of "hearts." The playing began quite early and ended only when the tables were cleared for the discussion of a menu which embraced many appetizing and appetite-satisfying things, a delightful combination of substantial and dainties.

The function was a very pleasant affair throughout, and the good nights and good-bys were spoken with regret.

STORMS CATCH JAKE WILLIAMS.

The recent storms and floods did not neglect Jacob Williams and his family, of Hannah, this county. His barn was blown down, catching 12 head of cattle. Five were killed. The others were rescued with the help of neighbors called in by telephone.

About the same time, over at Columbus, Ohio, other members of Mr. Williams' family were in serious trouble from the flood. Nelson Williams, a son, and Granville Moore, a wife, son-in-law and daughter of Jacob Williams, were confined in the third story of a building for three days and nights without food or water or beds.

LOUISVILLE BOOSTERS.

Special Train to Visit Eastern Kentucky Towns in May.

The Louisville Commercial Club will send a special train of boosters through Eastern Kentucky May 21st to 25th. Pikeville will be the first stop on the morning of the 22nd. Stops will be made that day at Prestonsburg, Paintsville, Richardson, Louisa, Catlettsburg and Ashland. The train will also visit McRoberts, Whitesburg and other towns on that line.

It was announced that invitations have been sent to Gov. James B. McCreary and to Lieutenant Governor E. J. McDermott to accompany the boosters, and one or the other of them will go. Among others to go will be J. W. Newman, State Commissioner of Agriculture, who will speak about the State Fair, and a representative of the Perry Centennial Association.

OF INTEREST TO TEACHERS.

The C. & O. has made a rate of \$6.80 from Louisa to Louisville and return on account of the K. E. A. meeting. These tickets must be bought Apr. 28, 29 and 30, and are valid to May 6.

A number of census reports have already come in, but trustees are hereby notified that where children move into their districts after the reports were made they may report the facts to me by May 1st and have the records corrected accordingly.

JAY O'DANIEL, Supt.

Road Maintenance in Boyd.

Bids for maintaining public roads in Boyd county were opened Tuesday. They ranged from \$21 to \$29 per mile. Some years ago when the roads were in better condition they were contracted as low as \$13.50 per mile per year.

QUITE AN HONOR.

Supt. Jay O'Daniel has been chosen by the directors of the Kentucky Educational Association to examine the list of essays offered in the three contests for the prizes to be given by the Association. He will select twelve from each of the three divisions, and to these the prizes will be awarded.

Mr. O'Daniel is known throughout the State as one of the most competent and progressive superintendents in Kentucky. What he has accomplished in the short space of one term has given him this high rank. The people of Lawrence county should be proud of him and his work.

Died of Spinal Meningitis.

The NEWS last week noted the illness of John, the son of Richard Skaggs, of this city, saying that there was but little hope of his recovery. The young man died Thursday night of spinal meningitis, one of the most deadly diseases known to physicians. Early on Friday morning the body was taken to Terryville, near the Johnson county line, and buried in the Skaggs burying ground. The unfortunate young man had been at work in Portsmouth, where the malady is said to be epidemic, and when he came to Louisa on the N. and W. train Tuesday night the evidences of cerebral spinal meningitis were so many and so decided that the physicians who saw him and those who had a description of the case had but little, if any, doubt concerning the nature of the disorder. Dr. Bromley, who attended the case, had the house where the boy died fumigated, and took all possible precautions to prevent the spread of the disease.

Spinal meningitis is a highly infectious disease and it is apt to become epidemic, but it is also sporadic, or occurring here and there, singly. But in any form the death rate is very high. Of course, where it rages as an epidemic, the disease seems to assume a more virulent form.

That the sporadic or single cases kill is shown by the fact that a death resulted at Charley, this county, last week from the disorder. The victim was a child of C. C. (Lum) Bowling, of Georges creek. Physicians who attended the case say it was decidedly one of spinal meningitis.

It is not within the province of a newspaper to say much, if anything, of the medical treatment of any disease, but it surely is its duty to urge the public to clean up and to keep cleaned up. Admitting the possibility of the spread of any infection it is well to lessen that possibility as much as possible. Personal and habitation cleanliness, the use of lime, coppers, soap and water are to be urged upon all. They are all cheap, all available, and they are all antagonistic to disease.

Telephones for Chesapeake & Ohio.

In continuance of its policy of increasing telephone equipment on its lines, the Chesapeake & Ohio Railway Co. has placed an order with the Western Electric Co. to equip another division with telephone train dispatching facilities. This is on the Big Sandy division, in the eastern part of Kentucky, and the telephone train dispatching circuit covers the entire section, approximately 135 miles from Ashland to Elkhorn City. The dispatcher will be at Ashland. Western Electric No. 102 type selector sets arranged for local battery use will be employed at way stations for receiving the dispatcher's signals. These contain the widely-used No. 50 type selector. Twenty-eight way stations will be equipped with selective signaling and talking apparatus.

Convicted In The Federal Court.

The recent trial and conviction of a bankrupt in the Federal Court at Covington, Ky., carries with it a warning to others who may be inclined to defraud their creditors in a similar manner. May & Whitaker were merchants doing business at Riceville, Johnson co., and became bankrupt. Whitaker turned over all his possessions to the referee, but it was suspected and afterwards proven in the Federal Court that May had hidden and disposed of much of his property which of right belonged to his creditors. They took the matter into the court, with the result that May was indicted, tried and found guilty in four cases for concealing his goods and making false statements to the referee. The punishment is confinement in a Federal prison.

FINE TIMBER.

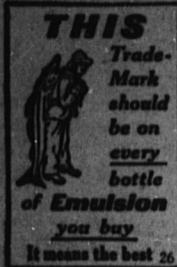

Forty years ago the cry was that in a short time the timber industry of the Big Sandy would be a thing of the past. But each spring tide carries out the logs in apparently undiminished numbers. The latest timber tide in this river let out the amazing number of 1,350,000 logs of splendid quality and 24,860 fine oak railroad ties. All this output brought the top of the market.

His Thirteenth Anniversary.

The NEWS and other friends of Robbie Dixon hope that the thirteenth anniversary of his birth will not prove an unlucky one. The occasion was made very pleasant on Wednesday evening by the presence of many of his young companions at his beautiful home, where, with music and good things to eat, and suitable presents to the young host an enjoyable time was had.

THIRD QUARTERLY MEETING.

The third quarterly meeting, of the Conference year, Ashland district, was held at the M. E. Church South on Sunday last. Elder J. F. Williams, who held quarterly meeting at Fallsburg on the day, held his Louisa meeting.

The Dam itself showed no effect of the strain whatever, and the water was well confined below the Dam, until the flow joined the waters of the so called "Big Elkhorn Creek," which were similarly swollen by the heavy rain. This great amount of surface water then filled the main Elkhorn Creek below the branch so that the elevation of the water in the large creek was higher than the basement of the Consolidation Coal Company's store, at the point where it flows past the store basement surface water drains until the water had reached an elevation of twenty-four inches in the store basement. When the store watchman noticed the water rising in the basement, he asked the Power Plant engineer to blow the whistle and arouse enough men to help him carry the goods stored in the basement to the floor above. This signal accomplished its purpose and the store loss was light, due to prompt action in removing the goods. But there seems to have been an impression, which reached the columns of your paper, that a serious

catastrophe had occurred. No damage was caused in Jenkins other than that mentioned above, and to the best of the writer's knowledge, nobody had any fear for the safety of the Dam, which impounds the water to a depth of only thirty-five feet. The Power Plant, located immediately below the Dam, operated continuously, and business resumed at Jenkins at six o'clock the following morning as usual. A few of our residents about two miles down Elkhorn Creek were frightened by the heavy rains and rise in the creek, but I have not heard an expression along the lines of your article from anybody.

It is evident that you were misinformed in this matter, and realizing that you were not in position to get in touch with us and learn the facts, because of the effect of the storm on both telegraph and telephone circuits, I am writing you the account as above. Feel sure that your correspondent was completely ignorant of the true situation, and that neither you nor your correspondent intended to maliciously publish a story to discredit the Consolidation Coal Company or its employees.

I will deem it a pleasure to demonstrate to you what we are doing at Jenkins, if you ever feel that you have an opportunity to visit us.

Yours very truly,
E. DRENNEN, Mgr.

WIN A GOLD MEDAL.

A gold medal to the school boy or girl between the ages of 10 and 15 who writes the best composition, not to exceed 800 words, on the repair and maintenance of earth roads, is to be awarded by Logan Waller Page, Director, Office of Public Roads, United States Department of Agriculture, Washington, D. C. All compositions must be submitted to Mr. Page before May 15, '13, and the medal will be awarded as soon thereafter as the compositions can be graded. The compositions may be based on knowledge gained from books or other sources, but no quotations should be made.

After many years' experience in dealing with the public road situation of the country, it is Mr. Page's belief that ignorance on the subject of repair and maintenance of road is as much the cause of their bad conditions as any other one factor. It is expected that the competition will bring about a better understanding of the subject of repair and maintenance in the rural districts.

Many children living in the rural districts have experienced the disadvantages of roads made impassable through a lack of proper maintenance and it is expected that their interest in the competition will stimulate greater interest among the parents. Bad roads have prevented many children from obtaining a proper education and have even prevented doctors from reaching the side of rural patients in time to save their lives.

Any child between the ages mentioned, attending a country school, may compete. Only one side of the paper must be written on; each page should be numbered; the name, age, and address of the writer, and the name and location of the school which he or she is attending must be plainly written at the top of the first page. The announcement of the competition has been sent to the superintendents of schools in the rural districts. No further information can be obtained from the Office of Public Roads. This announcement should be plain to everyone, and all children will thus start on a basis of equality.

A GOOD DIRECTORY.

The latest directory issued by the Chesapeake and Potomac Telephone Co., for this section is a very complete one. It embraces the Huntington, Kenova, Logan, W. Va., Louisa, Paintsville and Prestonsburg districts, and is also a directory for Proctorville, O., Davis Creek and Four Pole, Kenova, Denver, Flat Gap, Hippo and Laynesville, Ky.

Important Association Notice.

Teachers who expect to attend the meeting of the Kentucky Educational Association at Louisville, will take notice that reduced rate tickets will be sold only on April 28, 29 and 30, and are valid returning up to May 6.

Partners In Contest Business.

W. C. Potts, who successfully conducted the Big Sandy News contest has formed a partnership with Brad Chaffin, of this city and the firm will manager newspaper contests in various parts of the country. They already have several engagements, one of which is at Somerset, this State, where they now are.

In Jail Awaiting Trial.

Another chapter in the story of the Adkins-Savage affray noted in the NEWS last week is Adkins' arrest on a charge of assault with intent to kill. This followed his release on bail pending a trial for a less offense. He was brought before County Judge Boggs on Saturday last and waived an examination and was committed to jail to answer at the present term of the circuit court.

500-BARREL WELL.

Morgan County's Oil Field Shows Up With Another Gusher.

The gas well recently drilled in near Kernit, W. Va., by the company composed of Watson, Stewart, etc., is estimated to be good for five million feet per day.

500 Barrel Well.

Another well completed at Canel City, Morgan county, came in 500 barrels per day. The Ohio Fuel company completed a well some distance away from the town that is estimated all the way from 25 to 75 barrels per day.

The test well recently drilled to the Berea sand on Mill creek by the Ohio Fuel Oil company was dry. The company has decided to drill it to a depth of about 3000 feet. This well is about three miles east of Louisa, a section not heretofore tested.

The well on the W. V. Roberts place showed no oil of any consequence in the Berea and is being drilled to the Clinton sand.

The well on the Lackey place has been abandoned as unprofitable. The owners of O'Brien well No. 1, on Three Mile, are negotiating for a pipe line connection. If a line is secured they will put the well to pumping at once.

N. AND W. ELECTRIFICATION.

President L. E. Johnson, of the Norfolk and Western, is authority for the statement that the road is arranging to electrify its line from Eckman to Bluefield, which is 27 miles through a mountainous district. Negotiations are in progress with the Appalachian Power Co., to supply power. The electrification of this part of the road is in line with modern railroad practice, which uses electric power for getting heavy loads over stiff grades. The Appalachian Company has its distribution systems near the N. and W. right of way.

DEEPLY APPRECIATIVE.

The people of this city will ever have a warm spot in their hearts for the Big Sandy valley, as Paintsville, Pikeville, Louisa and Van Lear each unsolicited sent a separate load of supplies, including hardboiled eggs, pies, cakes and everything they could themselves possibly prepare and they will be glad to learn through this medium that the cargo was deeply appreciated and was immediately distributed to those in need. Harold also sent a large box. —Catlettsburg dept.—Independent.

USE THE SPLIT-LOG DRAG.

Whenever the split-log drag has been used on the dirt roads it has been pronounced the best method yet for working them. Why don't you farmers try it? You can make one in two hours time and at an expense of about 25 cents, and by using it about two hours in each month can keep the roads around your farm in splendid condition. Try it, and see how easy it is to keep your dirt roads in good condition.

OF A DIFFERENT KIND.

It is said that a camel has a stomach that will hold enough water to last two or three weeks. Several "camels" were in this city during court time, judging from the odor the camel might have been brought in trucks not carried by that or animal, the elephant. The liquid referred to was the sort that the editor of the Flemingsburg Times-Democrat calls murder juice.

DIED FROM BITE OF CAT.

Charles McCoy, a small boy who lived in Catlettsburg, was bitten by a mad cat a short time ago and was sent to the Pasteur Institute for treatment, where he died last week. Two other children who were bitten at the same time the McCoy boy was attacked, have recovered.

GONE TO VIRGINIA.

The Rev. Charles E. Crusoe went to Virginia, last Saturday by way of Washington and Baltimore. Mrs. Crusoe accompanied him as far as Ashland and returned in the evening.

AWARDED HONORS.

Company E, Second Regiment of Salyersville, won first honors in the 1912 rifle contest and Company D, Whitesburg, won second honors. The Adjutant General Department awarded them a national defense trophy which they will retain one year.

A CARD OF THANKS.

The husband, son, mother, brothers and sisters of Mrs. Daisy Clark, deceased, desire to extend their heartfelt thanks to neighbors and other friends who so kindly assisted them in their recent bereavement. Their generous sympathy and helpful acts will never be forgotten.

THE MARTINS WERE NOT LOST.

During the recent flood Jas. McGuire, of Two Mile, received the news that two relatives, John and James Martin, whom he had reared from childhood, had, with their families, been drowned at Hamilton, O., where they lived. The report of their death was not true, although it seemed well founded. The two men and their families were saved, but their escape from watery graves was narrow and thrilling. When Hamilton became inundated James Martin and his family walked two miles to a little town called Trenton, where they found refuge in a church. Here they were cut off from the rest of the world and for three days and nights were without food and water but were finally rescued and taken to Cincinnati.

Entertained For The Arnolds.

On last Saturday evening Mrs. L. S. Johnson entertained very handsomely in honor of her relatives and guests, Mrs. and Miss Arnold, of Columbus, O. The reception was very numerous attended, there being eight tables of four-handed flitch, with several guests who seemed to prefer the game of "hearts." The playing began quite early and ended only when the tables were cleared for the discussion of a menu which embraced many appetizing and appetite-satisfying things, a delightful combination of substantial and dainties.

The function was a very pleasant affair throughout, and the good nights and good-bys were spoken with regret.

STORMS CATCH JAKE WILLIAMS.

The recent storms and floods did not neglect Jacob Williams and his family, of Hannah, this county. His barn was blown down, catching 12 head of cattle. Five were killed. The others were rescued with the help of neighbors called in by telephone.

About the same time, over at Columbus, Ohio, other members of Mr. Williams' family were in serious trouble from the flood. Nelson Williams, a son, and Granville Moore and wife, son-in-law and daughter of Jacob Williams, were confined in the third story of a building for three days and nights without food or water or beds.

LOUISVILLE BOOSTERS.

Special Train to Visit Eastern Kentucky Towns in May.

The Louisville Commercial Club will send a special train of boosters through Eastern Kentucky May 21st to 25th. Pikeville will be the first stop on the morning of the 22nd. Stops will be made that day at Prestonsburg, Paintsville, Richmond, Louisa, Catlettsburg and Ashland. The train will also visit McRoberts, Whitesburg and other towns on that line.

It was announced that invitations have been sent to Gov. James B. McCreary and to Lieutenant Governor E. J. McDermott to accompany the boosters, and one or the other of them will go. Among others to go will be J. W. Newman, State Commissioner of Agriculture, who will speak about the State Fair, and a representative of the Perry Centennial Association.

OF INTEREST TO TEACHERS.

The C. & O. has made a rate of \$6.80 from Louisa to Louisville and return on account of the K. E. A. meeting. These tickets must be bought April 28, 29 and 30, and are valid to May 6.

A number of census reports have already come in, but trustees are hereby notified that where children move into their districts after the reports were made they may report the facts to me by May 1st and have the records corrected accordingly. JAY O'DANIEL, Supt.

Road Maintenance in Boyd.

Bids for maintaining public roads in Boyd county were opened Tuesday. They ranged from \$21 to \$29 per mile. Some years ago when the roads were in better condition they were contracted as low as \$13.50 per mile per year.

QUITE AN HONOR.

Supt. Jay O'Daniel has been chosen by the directors of the Kentucky Educational Association to examine the list of essays offered in the three contests for the prizes to be given by the Association. He will select twelve from each of the three divisions, and to these the prizes will be awarded.

Mr. O'Daniel is known throughout the State as one of the most competent and progressive Superintendents in Kentucky. What he has accomplished in the short space of one term has given him this high rank. The people of Lawrence county should be proud of him and his work.

Died of Spinal Meningitis.

The NEWS last week noted the illness of John, the son of Richard Skaggs, of this city, saying that there was but little hope of his recovery. The young man died Thursday night of spinal meningitis, one of the most deadly diseases known to physicians. Early on Friday morning the body was taken to Terryville, near the Johnson county line, and buried in the Skaggs burying ground. The unfortunate young man had been at work in Portsmouth, where the malady is said to be epidemic, and when he came to Louisa on the N. and W. train Tuesday night the evidences of cerebro spinal meningitis were so many and so decided that the physicians who saw him and those who had a description of the case had but little, if any, doubt concerning the nature of the disorder. Dr. Bromley, who attended the case, had the house where the boy died fumigated and took all possible precautions to prevent the spread of the disease.

Spinal meningitis is a highly infectious disease and it is apt to become epidemic, but it is also sporadic, or occurring here and there, singly. But in any form the death rate is very high. Of course, where it rages as an epidemic, the disease seems to assume a more virulent form.

That the sporadic or single cases kill is shown by the fact that a death resulted at Charley, this county, last week from the disorder. The victim was a child of C. C. (Lum) Bowling, of Georges creek. Physicians who attended the case say it was decidedly one of spinal meningitis.

It is not within the province of a newspaper to say much, if anything, of the medical treatment of any disease, but it surely is its duty to urge the public to clean up and to keep cleaned up. Admitting the possibility of the spread of any infection it is well to lessen that possibility as much as possible. Personal and habitation cleanliness, the use of lime, copperas, soap and water are to be urged upon all. They are all cheap, all available, and they are all antagonistic to disease.

Telephones for Chesapeake & Ohio.

In continuance of its policy of increasing telephone equipment on its lines, the Chesapeake & Ohio Railway Co. has placed an order with the Western Electric Co. to equip another division with telephone train dispatching facilities. This is on the Big Sandy division, in the eastern part of Kentucky, and the telephone train dispatching circuit covers the entire section, approximately 135 miles from Ashland to Elkhorn City. The dispatcher will be at Ashland. Western Electric No. 102 type selector sets arranged for local battery use will be employed at way stations for receiving the dispatcher's signals. These contain the widely-used No. 50 type selector. Twenty-eight way stations will be equipped with selective signaling and talking apparatus.

Convicted In The Federal Court.

The recent trial and conviction of a bankrupt in the Federal Court at Covington, Ky., carries with it a warning to others who may be inclined to defraud their creditors in a similar manner. May & Whittaker were merchants doing business at Riceville, Johnson-co., and became bankrupt. Whittaker turned over all his possessions to the referee, but it was suspected and afterwards proven in the Federal Court that May had hidden and disposed of much of his property which of right belonged to his creditors. They took the matter into the court, with the result that May was indicted, tried and found guilty in four cases for concealing his goods and making false statements to the referee. The punishment is confinement in a Federal prison.

FINE TIMBER.

Forty years ago the cry was that in a short time the timber industry of the Big Sandy would be a thing of the past. But each spring tide carries out the logs in apparently undiminished numbers. The latest timber tide in this river let out the amazing number of 1,850,000 logs of splendid quality and 24,860 fine oak railroad ties. All this output brought the top of the market.

His Thirteenth Anniversary.

The NEWS and other friends of Robbie Dixon hope that the thirteenth anniversary of his birth will not prove an unlucky one. The occasion was made very pleasant on Wednesday evening by the presence of many of his young companions at his beautiful home, where, with music and good things to eat, and suitable presents to the young host an enjoyable time was had.

THIRD QUARTERLY MEETING.

The third quarterly meeting, of the Conference year, Ashland district, was held at the M. E. Church South on Sunday last. Elder O. F. Williams, who held quarterly meeting at Fallsburg on the day previous, held his Louisa meeting at night.

HOME CIRCLE COLUMN.

COLUMN DEDICATED TO TIRED MOTHERS AS THEY JOIN THE HOME CIRCLE AT EVENING TIDE.

Receipt for Making Good Husbands.

One of our ladie subscribers who says she enjoys this department of our paper, hands us the following receipt for making good husbands, which she has tested and it worked like a charm.

First. Be a good wife; in so doing you will have a good influence over hubby.

Second. Treat him to kind words, kisses and good dinners. Prepare the dishes he likes best, if your means will allow.

Third. Keep his room in order no matter how often he scatters things around; put hat and boots where he will always know where to find them.

Fourth. Never scold; no matter how wet the wood or how much the stove smokes; tell him you like it that way; smile and go on.

Fifth. Make him believe he is all the world to you, as indeed he should be. Laugh at his jokes, no matter how stale.

And last but not least, keep all his buttons sewed on and all in their proper place, and all his socks well darned. Then, if you don't have a good husband we will say that you must have remarkably poor material to work on.

Social grace requires the wife to dress neatly, if simply, to make home pleasant, and, as far as compatible with her duties, to be ready to be the companion of her husband when he is ready to sit down at home. She will cheerfully recognize his every small attention and gladly reciprocate. To bring home a flower or a dainty little gift is a gracious which the tactful woman will appreciate.

A Word of Advice for Young People

We are sure the following beautiful lines from Louise M. Alcott will be appreciated by the readers of this column. They were written especially for the younger members of the household, and when such a noble character as hers speaks, it is of great profit to listen and heed:

"Dear young men and maids, let one, who in the capacity of teacher, nurse, friend, or author has been much behind the scenes for forty years assure you that the secret of success lies with ourselves as men and women now and in God's good time, as the fathers and mothers in the coming generations. Boys, for such I love to call you, and such most of you are till five and twenty, set up a high standard and never tire of trying to reach it. Don't begin your day with a cigar and end it in a theater, billiard room or club. Keep innocence, for in the end it shall profit thy soul much and open the way of heaven for thee. Never believe the pernicious saying that 'young men must sow wild oats.'"

"Girls, don't be in a haste to wed. Build up healthy bodies by good food, plenty of exercise and sleep. Learn all the household arts before you attempt to make a home. Above all, select your friends with care. Avoid girls who live only for fashion, flirtation and enjoyment, and use the privilege all women may claim, to decline the acquaintance of young men whose eyes will not

bear inspection by the innocent eyes of women. Set your standard high and live up to it, sure that the reward will come, here or hereafter, and in the form best suited to your needs.

"Birth, marriage and death are three solemn mysteries given us to study, and the second of these is the key which solves the problem of the other two, since well-born children and true wedded love will help us to bless and save this world, and send us rejoicing to receive our reward in the next."

The cheerfulness which should be one of the chief characteristics of the home life is often sadly in the minority, simply because the example of a cheerful disposition is not set by the wife and mother. One glimpse of her face as she begins the duties of the day is sufficient for the rest of the family. If it bears the illumination of a pleasant smile as she passes from room to room, if her greeting to the others is bright and cheery, if she has a pleasant word for those with whom she mingles, they will catch the inspiration and the day will be bright and sunny thereby.

How kindness brightens and beautifies the home. As the gentle breezes, the warm showers, the sunshine of the springtime all call forth vegetable life and fruitfulness in nature, so kindness brightens, beautifies and enriches the home life, filling it with the sweetest peace and joy, memories that are more precious than the contents of an alabaster box.

To have a home of our own and to live distinctly and honestly within our means is essential to all married life. How many couples now in mature life and surrounded by luxury and wealth, look back to the days of early privations as among the happiest days of their life. No sensible person will deem it a hardship to begin on a moderate scale. And when we have descended to the top steps of prosperity, we may look back on the days of small things as the golden days of our hearts if not our purses.

Bitter experiences are sometimes productive of sweet results.

Among the more homely but most essential accomplishments of a young woman is that of housewifery.

IN MEMORY.

In memory of a loving daughter, Jennie Cyrus, who died April 16th, 1908, one by one earthly ties are broken. As we see our love decay, and the hopes so fondly cherished. One by one our hopes grow brighter as we near the shining shore, for we know across the river wait our loved ones gone before. Gone but not forgotten.

MOTHER.

CARD OF THANKS.

We are so thankful to the many people that showed their heartfelt kindness toward us during the sickness and death of our loving wife and mother. But never the less our loss is heaven's gain. BALLARD CASTLE AND CHILDREN.

Henry C. Breckinridge, of Lexington, is to be Assistant Secretary of War.

A FACT ABOUT THE "BLUES"

What is known as the "Blues" is seldom occasioned by actual existing external conditions, but in the great majority of cases by a disordered liver.

THIS IS A FACT which may be demonstrated by trying a course of

Tutt's Pills

They control and regulate the LIVER. They bring hope and buoyancy to the mind. They bring health and elasticity to the body.

KENTUCKY SCHOOL FUND

Is Increased \$45,709.15 When Dog Tax Is Collected.

Frankfort, Ky., April 8.—State Auditor Bosworth to-day returned to the various Superintendents of County Schools \$45,709.15 to go into the school fund, as this is the remainder of the dog tax after paying the sheep claims.

A total of \$98,207.78 was collected by the Sheriffs in dog taxes, and of this sum \$52,498.63 were paid out in sheep claims. Fayette-co., lacked 50 per cent. of having enough money to pay the sheep claims, and Franklin-co., 40 per cent. while Edmonson, Greenup, Perry, McCreary and Wolk had no sheep claims to pay, and all of the money collected from the dogs went to the school tax.

Pike County established the record for collecting dog tax, as there was turned back to the County School Superintendent, after paying the sheep claims, \$2,228.20.

Martin county had the smallest claim for loss of sheep by dogs. It was only three dollars and a half.

NOTICE.

The Burgess-Garred Oil and Gas Co., pursuant to Section 561, Kentucky Statutes, is closing out its business for the purpose of dissolution.

SAMBER

SAMBER excels everything on the market for the relief and cure of Coughs and Colds, Catarrh of the Throat and Lungs, Bronchitis, Asthma and Consumption. It is made of many of the best known herbs of the forest, which builds up the general health. Wm. L. Ball, of Adams, Ky., who possesses religion equal to that of Job, writes as follows: "I hereby certify that several years ago my wife had a dreadful cough and lung trouble. We used many remedies without relief. We decided to try 'SAMBER.' After she used this wonderful medicine a short time she was greatly benefited. I can cheerfully recommend this wonderful remedy to all who are suffering with lung trouble, catarrh, etc." "SAMBER" is manufactured and sold only by SAM A. BERRY, Sole Owner, Louisa, Ky. Price 50c and \$1.00 per bottle. Shipped by express to any part of the United States, charges prepaid on \$2.00 worth or more of the medicine. 6 one dollar bottles charges prepaid for \$5.00.

NOTICE

We still buy muskrats till June 1st. We buy produce from country stores. We buy from travelers and peddlers, and find it to their advantage to sell us and will increase their profit by doing so. We place our order for 100 bu. of Southern Queen seed potatoes. Will be shipped both to Louisa and Webbville and will be delivered on the road to Blaine.

We are agents for seeds and can get seeds when others fail. Get busy now, you will find it will pay you to hitch up with us. We carry a good assortment of fancy groceries, oranges, lemons, bananas and apples. We buy 800 lbs. of chickens every week at a high market that brings them in.

We want May apple roots, red percon, slipper elm bark, sasafra bark, north and south root, old rubber boots and shoes, brass and copper, cow hides, horse hides, etc.

CATARRH IS EASY CURED!

Now here is a proposition I am making to all who suffer with Catarrh to prove to you that I have discovered a treatment that will positively cure catarrh, upon receipt of 50cts. I will mail to your address postpaid one Box and one Bottle of my Vegetable Compound Catarrh Cure and if you don't say that it is the best treatment you ever used I will gladly refund your money. I will trust your honor not to ask for it unless you are entitled to it according to the terms of my proposition. Guaranteed by all dealers to cure or money refunded by manufacturer. Ask your druggist or General Merchant for Fitzpatrick's Catarrh Cure. If they don't keep it in stock and will not order it for you, send your order direct. In regard to my reliability refer you to the Louisa National Bank.

Do not delay, more lives are lost by procrastination delay, putting off till tomorrow or next week or next month the treatment of disease than have ever been lost in war. I earnestly hope to hear from every sufferer, including the small sum of 50 cents for treatment. This amount has cured others, which I can prove by their testimonials acknowledge to before Notary Public. Don't neglect yourself as no doubt you are aware that Catarrh causes a general break down in health and may prepare the way for that dreadful disease consumption.

"Young man, when you buy a buggy, be sure it's a Studebaker"

Sound advice from the man who has been driving one for twenty years.

When you buy a Studebaker buggy you are buying all the skill, experience and science in buggy building that half a century can produce. You are protecting yourself against the mistakes of younger builders.

You will always be proud of the Studebaker nameplate, for there isn't a buggy on the road that is its equal for style, luxury and good looks.

Flexible bent-reach gear, graceful lines, solid corner, plugless body, double-ironed shafts, are a few of the special Studebaker features.

The new close-fitting shifting rail is enough in itself to make you buy a Studebaker buggy.

BERNARDO CHIEF 4308

In offering the services of Bernardo Chief 4308 to the public we do so knowing that not so good a horse has ever stood in Lawrence Co. nor none his superior in the mountains. A tree is known by its fruits, a horse by his colts. You have but to come to the neighborhood where he has made the last two seasons to be convinced the above statement is true. The colts have the same gait of their sire. Bernardo Chief 4308 was sired by Sterling Chief 2079, he by Bourbon Chief 976, Dam Beale L. 1438, Bourbon Chief by Harrison Chief 1606, Dam Belle; Beale L. 1438 by Forrest Denmark 153 dam Pattie 23; Harrison Chief 1996 by Clark Chief 89, dam Lute Boyd; Belle by Lathan's Denmark 69 dam Dan; Forrest Denmark 153 by Mambrino Forrest, dam Old Queen Denmark, Pattie 23 by Blue Jeans 3-1148, dam Puss 109, Bernardo Chiefs dam was Walkie Gay by Blue Jeans 3, 2nd dam Berry, Blue Jeans by Phillip's Black Horse, dam Sallie W, 2nd dam, Berry by Diamond Denmark 68, 3rd dam, Phillip's Black Horse by Gen. Reduce the living expenses of
the people. This is the key note of
the Underwood tariff bill.

A marooned family in the Ohio
valley took 32 hens into the house
when the waters rose and lived for
four days on the eggs the hens
laid.

The new tariff bill takes a wide
swipe at protection all down the
line, and when it becomes a law, this
country will have taken a step in
the direction its founders intended
for it more than a hundred years
ago.

Under the proposed new tariff
bill the following are some of the
articles which may be brought into
the United States free of duty:

Meats, flour, bread, harness, wool,
steel rails, lumber, paper, hogs,
corn, milk and cattle.

Suffragettes in Kentucky won a
sweeping victory when Superintendent
of Public Instruction Hamlett
issued a statement in which he said
that in all School Trustee elections
to be held this spring all women 21
years old had the right to vote in
elections without registering.

The Kentucky Legislature, at its
session next year, will have to pass
a law giving effect to the Senatorial
election amendment to the constitution
by prescribing the time and
manner of electing a Senator. This
will be necessary under Section 4,
Constitution of the United States.
In Indiana a special session of the
Legislature will have to be held to
make similar provision. Senator
Shively will be up for re-election
next year.

Some one is liable to plead the
statute of limitation on our good
friend Owsley Stanley if he persists
in going back twenty-five years in
getting reasons for objection to the
appointment of certain persons to
office under the present Democratic
administration. We are inclined to

believe that friend Stanley himself
would not like for every mean thing
he had done during the past twenty-
five years to be brought to public
view just at this time.—Cadiz Rec-
ord.

Candidates for the county offices
all over Kentucky are breathing a
sigh of relief over the prospect of
the primary race for United States
Senator being called off and postponed
to August, 1914, due to the
ratification of the popular senator-
ial election amendment to the Fed-
eral Constitution. The senatorial race
promised to involve and "gum up"
the local contests in many counties
and the candidates for the county
offices were in mortal dread of being
drawn into the race and com-
pelled to take sides. With this vex-
atious race eliminated from this
year's primary fight the local can-
didates would feel a load lifted from
them.

School Days In Reformatory.

Frankfort, Ky., April 9.—School
days began in the Frankfort Reform-
atory last night, and more than 100
convicts, gray-haired offenders and
boys who had scarcely attained their
majority, with slate and books under
their arms, filed into the cor-
ridors of the new cell-house, where
seats were arranged facing black-
boards. Six tentative classes were
organized for the first night's work.
Warden A. J. G. Wells and Chap-
lain Walter Vreeland took a hand,
and Henry Youtsey, Tom Butler
(sent up from Lexington for complicity
in the State University fire), Percy
Magness, who is said to have
attained considerably dexterity as a
porch climber in Louisville before
being sent to prison, and Albert
Adams, a Fayette-co. prisoner took
charge of classes. They proved pa-
tient teachers, and few instructors
ever had better attention or more
eager pupils. It was necessary to be-
gin at the very rudiments of in-
struction in the formation of let-
ters and figures with many of the
men. Nearly 100 more men have
made requests to join the school,
but for various reasons the classes
will not be enlarged until the or-
ganization of the school is complet-
ed and the system of opening and
dismissing the school perfected. War-
den Wells was delighted with the
initial success of the venture.

THE SUN SHINES THROUGH THE CLOUDS.

Sunday's meeting in the court
house when the strong address of
G. W. Castle, Deputy State Inspect-
or and Examiner and the thought-
ful and logical suggestions of Rev.
Hudson, of Winchester, were deliv-
ered to a large gathering of the
Jackson people had its bearing up-
on the situation in Breathitt-co.
Mr. Castle has been in Jackson
for several weeks inspecting the
county offices and to date had made

examinations of the offices of the
County Judge, Circuit Clerk and the
Sheriff. He no doubt has become
a wiser man in that he knows where
as before the examination he only
thought as did the rest of us. What
his examination shows we can not
tell but this one thing we do know
that things about the court house
in Jackson are looking up. The jail-
er has been provided with a better
system of keeping track of his busi-
ness and the records of his office
and will no doubt adhere to it in
the future. There is nothing like
a system and any office without a
system is an absolute failure.
Breathitt county needed the ser-
vice of Mr. Castle just at this time
and we trust that he may remain
until every office is put upon a
sound and complete system becoming
the dignity of the respective office.
His efforts here are now reaping re-
sults which are visible upon every
hand and we believe that should the
State Inspector know and be made
to realize the good that Mr. Castle
is doing here that when the pres-
ent work is completed that he will
send Mr. Castle back to Jackson af-
ter the next term of the circuit
court to see how things are work-
ing and to again aid and assist in
perfecting the badly needed sys-
tems of the county.—Jackson Times.

Beware of Ointments for Catarrh That Contain Mercury

as mercury will surely destroy the sense
of smell and completely derange the
whole system when entering it through
the mucous surfaces. Such articles should
never be used except on prescriptions
from reputable physicians, as the damage
they will do is ten fold to the good you
can possibly derive from them. Hall's
Catarrh Cure, manufactured by F. J.
Cheney & Co., Toledo, O., contains no
mercury, and is taken internally, acting
directly upon the blood and mucous
surfaces of the system. In buying Hall's
Catarrh Cure be sure you get the genu-
ine. It is taken internally and made in
Toledo, Ohio, by F. J. Cheney & Co. Testi-
monials free.
Sold by Druggists. Price 75c per bottle.

WEST VIRGINIA NEIGHBORS.

A series of fires, beginning Sunday night in Williamson, has caused a loss of nearly \$10,000 and has brought on a discussion of a better fire alarm system.

Huntington, April 10.—"We must relieve these people. It will take ten thousand dollars to do it, and if we don't get it in Huntington, we must get it somewhere else. The need is pressing and we are not relieving the sufferers fast enough," declared G. A. Northcutt this morning, in discussing the flood relief situation.

The total property loss in Huntington as a result of the flood which has had the greater portion of the city in its destructive grasp since Saturday, will reach nearly a million dollars, according to a conservative estimate made by Mayor Floyd B. Chapman.

The water has invaded a large area of the residence section lying near the Chesapeake & Ohio railway and in the extreme eastern and western ends of the city.

Williamson has about recovered from the effects of the flood in the Ohio valley and it is expected that normal conditions will soon prevail throughout the coal fields where work in general has been partly suspended.

Empties are again being distributed to the mines, the railroad company being in position to forward the loaded cars and the shop employees who were laid off went back to work Friday.

Shortly before 6 o'clock last Friday evening two negroes, both natives of other states, explained the crime of murder, when they were hanged until dead at the West Virginia Penitentiary. Both had confessed their guilt and neither evidenced much trepidation even when they mounted the gallows to their doom.

The victims were James Williams and John Marshall.

Both these men had murdered their wives.

On last Saturday at the mouth of Rock House on Coal River, near Clothier, in this county, Richard Murray was shot and instantly killed by Grover Bear.

The men were drinking and got into a dispute over some trivial matter when Murray called Bear a one-legged— and started down the creek. Bear then began cursing Murray. Murray stopped and turned around as though he was coming back, when Bear walking toward him drew his revolver, which was

a 32-calibre Owl He-d. and fired 3 times into the body of Murray killing him almost instantly. Baer was arrested and lodged in Boone county jail until Sunday when Sheriff Chaffin went after him and brought him to Logan and placed him in jail to await the action of the grand jury.

On account of the flood and fire that has swept Huntington, the West Virginia State Sunday School Convention will be held in the city of Clarksburg on Wednesday, Thursday and Friday, April 23, 24 and 25, 1913.

Church workers and business men have unanimously invited the Convention to relieve the stricken city of Huntington.

The original program will be carried out.

The Pike county authorities recently asked permission of the authorities of Mingo to use enough of the public road at Delorme for a bridge they propose to construct across Tug River.

Mr. J. K. Anderson, county road engineer, viewed the premises a few days ago and on his report the county court granted the application.

This bridge will afford the farmers of that section of Pike county a market for their produce and will also be of great benefit to the employees of the coal companies in that neighborhood.

Floyd county has a jail to rent for the first time in years; but if you get it you will have to be arrested, tried and convicted. It was vacated last Saturday, and jailer Jones is very lonesome.

Owingsville, Ky., April 9.—As the result of a prank, Frank Jackson, 18-year-old son of Clay Jackson, of Rowan-co., is at the point of death. Last night the parents of John and Henry Higgins left home. Seeking

to scare the two Higgins boys who were alone, Jackson entered the house noiselessly and made noises. The other boys become frightened and grabbed a shotgun. When Jackson attempted to make himself known the youngest of the two boys fired at him, inflicting injuries in the head and chest which probably will result in Jackson's death.

The Ohio Fuel Co., brought in a 40 barrel well on the center farm, a few hundred yards southwest of the Terril well, at Cannel City, and the well on the J. T. Day farm was a fine gas well. Other well will be finished shortly.

Morgan county has 34 announced candidates for office. They know how to get there and announce through the paper. A straw vote being taken by the home paper don't show a single vote for a man who has not announced.

Whitesburg.—Henry B. Sturgill, aged forty years, formerly of this county, a brother of former County Court Clerk Andrew Sturgill, fell from the top of a building he was repairing at Garden, east of here in Wise-co., Va., receiving injuries from which he died within a few hours. He is survived by his wife and several small children.

Will A. Hazelrigg aged about 54 years died at his home at Salyersville at 2:30 p. m., last Thursday of heart failure. He was a half brother of I. H. Cole and Mrs. Emma Salyer, of this place. Mr. Hazelrigg formerly lived here and worked when a boy and young man as compositor on the Mountain Scourer, the first newspaper ever published in the county.—Licking Valley Courier.

Dr. W. G. Carter, aged nearly 92 years, passed peacefully away at his home on Prestonburg-st. at seven o'clock p. m., Saturday. He had been confined to his bed most of the winter and his death was not unexpected.

Dr. Carter was one of the pioneer physicians of the county, had practiced medicine for sixty odd years. He was one of the oldest Masons in the state, having been made a Mason nearly sixty years ago.—Licking Valley Courier.

W. T. Womack, a banker of Grayson, and chairman of the Carter County Democratic Committee, takes a most active interest in party affairs in the upper end of the Ninth congressional district, and says the "boys" are in good fighting trim and determined to get their share of the county offices. He says T. T. Mohrley, of Elliott-co., a Democrat, will be the next Representative for the one hundredth district, made up of Elliott and Carter counties. It is Elliott county's time to furnish the solon.

Owingsville, Ky., April 9.—Jesse, the 15-year-old son of Mr. and Mrs. Deema Cartwell, while fishing in Mudlick this morning, fell into the river and was drowned in about four feet of water. The boy was a good swimmer, and it is supposed he was in a faint when he fell. His companions, who were young, became frightened and ran away, and did not tell of the accident until too late to do any good. Coroner Zack Wells held an inquest, the verdict being accidental drowning.

DIFFICULT CHURNING.

At this season of the year the Experiment Station receives a large number of inquiries in regard to the difficulty of churning cream into butter. The inquirers complain that they churn their cream for a considerable period of time but that the butter will not "come."

This difficulty may be due to several reasons, which may be enumerated as follows:

At this time of the year and particularly a little earlier than this, there is no green feed which may be fed to the cows, except silage. The dry feed causes the butter fat to assume a hard, white condition. The fat occurs in the cream in the form of little globules or balls. It is necessary that these little globules shall stick together in large masses to form particles of butter. When the cows are on dry feed these little particles become hard and will not stick together. A ration composed of corn meal, cotton seed meal, corn stover and dry hay is particularly calculated to cause a hard condition of the fat. Silage will help to some extent in reducing the hardness. Linseed meal also tends to cause a softer fat.

When the cows get on grass in the spring the difficulty of churning is soon eliminated because the green grass softens the fat.

One of the most frequent causes of long churning is a thinness of the cream. The cream should be rich in order that the globules may be brought close together and the butter gathered readily. In the summer the cream may frequently be churned at a temperature of 58 degrees F., but in the winter we find at the Experiment Station that it is necessary to churn the cream at a temperature of about 62 degrees. A higher temperature serves to soften the fat and causes it to churn more quickly. Thirty per cent cream which has been carefully held at a temperature of 75 degrees for twenty-four hours will gladden and be ready for churning. The ripening will help materially in decreasing the length of time required to churn the cream, also this ripening gives the butter a delightfully mild acid flavor. The ripening in addition causes all the butter to churn out of the cream and therefore there is very little loss of butter in the resulting butter milk.

Cold cream often foams and will not churn. Two hours before the cream is to be churned the temperature should be reduced from 75 degrees F. to 62 degrees F. It requires this length of time for the butter fat to become cooled through.

Difficult churning is sometimes caused by the fact that the cream becomes contaminated with undesirable bacteria that prevent the growth of the desirable kind of lactic acid bacteria. Therefore it is highly advisable to carefully wash and scald the milk utensils after using them.

JNO. C. C. MAYO.

Washington.—The Washington Post in its daily hotel column, carries the following with reference to Jno. C. C. Mayo, of Kentucky:

John C. C. Mayo, of Paintsville, Ky., Democratic National Committeeman from Kentucky, stopped for a few minutes yesterday. Mr. Mayo is one national committeeman who is not worrying either himself or the administration, though he says the Blue Grass State doubtless has as many office seekers as any other State. The President and members of his Cabinet ought to be given a chance to get easy in the harness before they are set upon for places, it seems to me, remarked Mr. Mayo at the Willard. "The Democratic party was victorious, to be sure, and Democrats deserve rewards, but there are, perhaps, more important tasks confronting a new administration than the appointment of men to office. I want to see Kentucky Democrats who want office get all they can, and I shall help as a matter of course."

Anty Drudge — "Why, bless my soul! Mrs. Old School, the washerwoman, has seen the light at last and has adopted the Fels-Naptha way of washing."

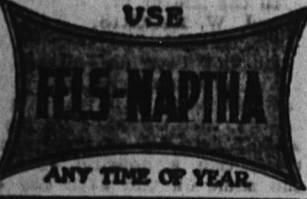

Grocer's Boy — "She was forced to it, Anty Drudge. Mrs. Millionaire, her best customer, told her that if she didn't use Fels-Naptha Soap, she'd take her washing away. Was tired, she said, of having her clothes come back all yellow and some with streaks of dirt still in them."

No sensible woman wants to do more work than is necessary to accomplish the best results.

And yet— There are women who take a full day to do the weekly wash when it can be done in half the time and far better and easier by using Fels-Naptha Soap in cool or lukewarm water.

Fels-Naptha way is easy and simple.

Full directions are on the red and green wrapper.

RUSH.

It is cold, windy and sunshiny, today, and farmers are busy with six or eight plows on every farm. Peach, pear and apple trees in full bloom.

Service and rebuds out beautiful, but the most beautiful thing I have seen or heard is, in my talk to most of the farmers is the way every one is against any whiskey candidate, and you know that makes me happy and feel good, and I just talk and talk and praise God.

The roads over here are splendid. You can drive and talk to your heart's content, and I am going to ride all over this county and see my old friends and have a good time.

I rode out this morning over my son-in-law's farm, 260 acres. Saw 52 head of young heifers and steers, 30 work oxen, several cows, calves, sheep, lambs and hogs, and it seemed like old times. It does me so much good to see old friends.

MINERS ORGANIZE.

Under the direction of the officials of the Consolidation Coal Co., the miners of Jenkins met Thursday last and organized themselves into a corps of emergency assistants for their own protection at that large operation. A large number of miners were present, and addresses were made by the officials of the company bearing in detail upon the important subject, and it is now believed that if a mine disaster should happen at Jenkins, this trained corps of rescuers would be perfectly able to make the best of the circumstances until a rescue car could reach there. This will certainly be of great help to Jenkins.

METHODIST CHURCH FOR JENKINS.

Rev. C. F. Oney, of Lexington, passed through Pikeville last Friday on his way home, after a visit to Jenkins. Rev. Oney states that a new Methodist church will be erected there during the coming summer, and it was the purpose of his visit to purchase a lot on which to build and to perfect all preliminary arrangements for the work. No details have as yet been given out, but indications are that it will be of magnificent design, and the cost will be great.

MR. AND MRS. WEST MOVE HERE.

Jas. P. West, assistant manager of the Sandy Valley Telephone Co., Mrs. West and little daughter have moved to Pikeville from Portsmouth Ohio, their former home. During the recent inundation by the flood in the Ohio Mr. West's home there suffered great damage, and they lost practically all their house furnishings.

Pikeville welcomes them, with the assurance that so long as they elect to remain in our midst, Ohio-floods will never molest them again. They will occupy the Dr. Bentley home near the Wiseman pool parlor.

REV. McCLELLAND TO JENKINS.

Rev. M. D. McClelland, pastor of the First Presbyterian church of Pikeville, has resigned from his pastorate here, which resignation will become effective on June 1, and will go with his family to Jenkins, where he will have charge of the new work just beginning there. His successor has not yet been named.

BALL GAME.

The baseball season opened at Pikeville last Saturday with a game between the local team and Prestonsburg. Although the visiting team laid it over our boys monstrously bad 16 to 4, the victors did not brag over their success, but by their friendly words they made it plain to our team that there was no humiliation in being defeated in such a harmless pastime, and credited it to their much more extensive practice. They having already played two other match games this season with Paintsville, in which they were winners. The Prestonsburg boys have honestly won their laurels, and they are certainly by every right entitled to them. During the progress of the game Oscar Stephens, of the Prestonsburg team, had the misfortune to get struck on the head by a ball from Bales, Pikeville pitcher, which disabled him for the remainder of the game. But he completely recovered a few hours afterwards.

NEW HOTEL AT SHELBIANA.

Louis Sowards, for many years a resident of Pikeville but during recent years a citizen of Shelbyana, has built a new hotel a little way above the railway station at that place and is preparing to open up a first-class hotel. Mr. Sowards is widely known and liked throughout the Sandy Valley, and there is no doubt that he will enjoy a large business right from the start.

SEXTETTE.

Local musicians are preparing to organize brass sextette for the purpose of furnishing music for dances and other occasions. No definite information has yet been made public, but more complete details of the organization will appear in next week's edition of the NEWS.

SOCIETY.

A pretty tea party was given by Mrs. Chas. R. Fuller, of Van Lear, to a number of her friends at the home of Mrs. J. S. Cline last Saturday afternoon at 2 o'clock in honor of Mrs. Roy Calloway, of Mount Hope, West Va., wife of the manager of the new Royal Theater. Among the guests present were Mesdames Calloway, Fuller, John H. Smith, W. W. Gray, and Miss Carolina Cox, of Richmond. It was a delightful affair, and all the guests enjoyed themselves very much.

Mrs. Frank Englar, of Jenkins arrived at Pikeville Wednesday and will be the guest of her mother, Mrs. Mary M. Bentley for several days.

Cyrus Cooper, of Salyersville, is the guest of his aunt and uncle, Judge and Mrs. E. H. Cooper, in this city this week.

Mrs. John H. Smith, of Ashland, is the guest of her parents, Mr. and Mrs. J. S. Cline, this week.

LOCAL AND PERSONAL.

Pikeville is taxed to her limit to supply the ever increasing demand for more houses to rent. You business men who have the dough to spare, get busy and put up some good substantial houses for these people who demand to be taken care of.

It is very probable that a third moving picture show will be established here during the coming summer; but no definite information has yet been given out.

Mr. and Mrs. C. O. Honaker and little son Frank, of Huntington, W. Va., have been the guests of Dr. I. E. Gray for several days past.

Hibbard Call, of Yeager, this county, was the guest of his brother, John W. Call, last week.

R. L. Dean, of Louisa, was here last Friday.

H. L. Barthel, auditor for Morris and Co., Meat Packers of Chicago, was here last Friday checking up his company's extensive business in this city.

C. and O. engineer Walker, of Ashland, has succeeded Billy Artrip on the Elkhorn passenger run. Mr. Walker and family will move to Pikeville.

Dr. W. L. Gamble, wife and two children, all of Jenkins, were stopping at the Pike hotel for several days last week.

Miss Leona Polley, who has been in school at Lexington for several months, is spending her vacation week at home at Praise, this county.

H. E. McClain, formerly of Jenkins, has located at Pikeville, and will be engaged in the mining and civil engineering business.

J. Dennis McCowan, Prestonsburg's barber, was here calling on friends last Friday and Saturday.

J. W. Castle, of Paintsville, was a business caller to this city last week.

Chas. R. Johnson, of Van Lear, was here last Friday.

John Keathley was thrown from his horse several days ago and badly bruised upon the left arm.

The recent wet weather has done much toward retarding the work of grading the streets preparatory to laying the brick pavements, but it has been authoritatively stated that additional machinery for this work will arrive within a few days, and with this the work will move with more expedition. Superintendent Myers is well satisfied with the progress thus far made with the small amount of machinery now at his disposal, and he will push the work with all speed just as soon as he receives his full working equipments.

Fred Stone, of Coal Run, was a business visitor here last Wednesday.

Judge H. H. Stallard, of the County Court, is now in the county on an extended official visit.

W. H. Caudill, I. S. Collins and W. H. Stafford, all traveling salesmen of Catlettsburg, were here yesterday.

Attorneys E. D. Stephenson and P. B. Stratton went to John's creek Monday to take depositions.

Attorney Roscoe Vanover left Monday for Whitesburg to attend the present term of the Letcher Circuit Court. He is now back at his office in Pikeville.

Accompanied by Miss Lurle England, stenographer, attorney J. S. Cline went to Shelby Gap to take depositions last Monday.

The infant daughter of Dr. and Mrs. G. C. Bentley is very sick of croup and measles, and it is feared it cannot live.

W. W. Burke, of Ashland, is a business caller here this week.

J. M. Evans, of Louisa, was in town Monday.

Bobby Marrs, our peanut roaster boy, has just returned from a visit of several days spent pleasantly at Elkhorn City.

J. F. Carnahan, of Louisville, a well known and popular young man throughout the Sandy valley, was in Pikeville yesterday.

Miss Annie Burdett, of Jenkins, was the guest of friends here yesterday.

D. C. Lockhart, of Clintwood, Va., has been transacting business in this city for several days.

FLOYD COUNTY.

NEWS FROM PRESTONSBURG AND OTHER POINTS IN THE COUNTY.

DEATH OF SAM. MAY.

Mrs. Nell Davidson May and son, Colonel, of Prestonsburg, were here Saturday on their way to Tazewell, Va., to attend the funeral of Sam May, a son of Col. Jack May, deceased. At this point Mrs. May received a telegram which informed her that the burial would occur before she could reach Tazewell and she returned to Prestonsburg on the evening train. Mr. May had relatives in this city.

The revival services conducted by Rev. G. D. Hyden, are still in progress.

Seeks Release Of Johnson Co. Man.

Washington, April 11.—Representative John W. Langley received a petition from friends and relatives of R. M. Lemaster, of Johnson-co., asking his aid in getting a pardon for Lemaster, who is in prison in Texas, having been convicted of killing a naturalized American of Mexican nativity, who was a member of the Mexican police force. The shooting occurred at Laredo, Tex.

Lewis Lemaster, of Flat Gap, Ky., father of the convicted man, who has been in Texas, declares that his son acted in self-defense. The jury was made up of Mexicans and half-breeds, he declares, and the convicted man was not given a square deal.

According to the father the quarrel came about when the Mexican policeman spoke in an insulting manner of an American woman. The sentence was nine years in prison.

Mr. Langley took the matter up with Representatives Garner and Slayden, of Texas, and steps will be taken to bring the facts to the attention of the Governor with a view of getting a pardon.

GOVERNMENT BUILDING SITES.

Washington, April 14.—Definite propositions in various Kentucky cities to sell sites for public buildings to the Government were made public by the Treasury Department to-day. They follow:

Prestonsburg.—E. V. Hall, northeast corner Cross and Main streets, \$5,000; Mrs. L. H. Gormely, Front street, corner street bridge, \$5,000.

Pikeville.—No proposals.

Paintsville.—Jno. C. Ramey, northeast corner College and Second streets, \$7,500.

ARNETT PLACED ON TRIAL.

Mt. Sterling, Ky., April 15.—Clarence Arnett, of Magoffin county, accused of the murder of Lee Patrick, to-day was placed on trial. The murdered man was a brother of United States Marshal A. B. Patrick.

Washington, April 15.—Representative John W. Langley secured an order from the Postoffice Department to-day creating a new railway mail service over a railroad 20 miles in length, recently built by the Pond Creek Coal Company from Williamson, W. Va., to Stone, Pike county, Kentucky. Four newly built towns are on the railroad.

The outlook is that Peach Orchard will have no school this year, as nearly all the patrons of one district left here after the mines shut down. There are about 18 pupils in the district now.

SUNSHINE.

A Departure From The Ordinary.

In keeping with the ideas advanced by some of the best known leaders in modern Sunday school and church work the people of the Christian church in Louisa are making a change in their Sunday morning services. Instead of having the Sunday school, followed by the church service, as formerly, they now have one continuous service two hours in length. The hour for beginning is 9 o'clock. The Lord's Supper is observed at 10:15. The sermon begins at 10:30. The service closes at 11 o'clock. In case the minister is absent the hour for closing is 10:30.

The above order has been in effect now for a month and has proved very satisfactory.

NOTICE.

In pursuance to order of the Lawrence Fiscal Court with reference to the sinking fund for levy year 1912, Lawrence county, Ky., which provides that after all the interest has been paid on the judgments and bonds, also outstanding claims that I shall take up the outstanding claims pay them off. And for the purpose of payment the party holding the oldest claim will be claim No. 1. I will have at least \$2000 to pay on these claims.

J. P. GARTIN, Treas. Lawrence Co.

GO FOR IT, BOYS!

The Continental Corporation, of Pineville, Ky., has notified Commissioner of Agriculture Newman that it would make a standing offer of \$2 per bushel for the entire yield of the prize-winning acre of corn grown by the champion boy, corn grower in Kentucky for 1913. The corn corporation must be a member of the Boys' Corn Club under the rules and regulations of the Department of Agriculture co-operating with the Federal Department of Agriculture.

CONTRACTS TO LET.

Road Work That Should Interest Many Lawrence County Citizens.

The road from Louisa corporation line to head of Blaine is measured into two miles sections and posts set at the intersections. Also the road to Webbville the same as above. The road known as the Louisa-Blaine road will be let to contract to the iron bridge across Big Blaine creek at Koun's store. The road to Webbville will be let to contract to the bridge across Dry Fork at Webbville. Brushy creek from the bridge across Brushy creek near its mouth to Lon Hulet's will not be contracted. The County Judge will receive sealed bids till noon April 19, 1913, for putting into condition and maintaining these various sections of road, and award contracts to the lowest responsible bidders, for one year ending April 1st, 1914. Specifications, contracts, etc., may be seen at the office of the County Road Engineer. The county reserves the right to reject any or all bids. Bids will be opened and examined at 1:30 p. m. B. J. ANOTHER LOUISA CASE.

It Proves That There's A Way Out For Many Suffering Louisa Folks.

Just another report of a case in Louisa. Another typical case. Kidney ailments relieved in Louisa with Doan's Kidney Pills.

Mrs. Sarah Pigg, Louisa, Ky., says: "All I said in 1908 recommending Doan's Kidney Pills still holds good. The cure they made has proven permanent." (Statement given Jan. 3, 1912.)

Mrs. Pigg's former endorsement given on January 27, 1908 was as follows: "I suffered with symptoms of kidney trouble, all of which were painful and annoying. My back ached and I could hardly endure the dull, heavy pains. I was weak and tired and void of ambition. I had nervous headaches and dizzy spells and was annoyed by the kidney secretions. Doan's Kidney Pills were brought to my notice and procuring a box at the Louisa Drug Store Co. I began their use. They regulated the kidney action and entirely rid me of my suffering. I willingly recommend this preparation to my friends."

M. G. Berry for County Judge.

To the Democratic voters of the County:

You will see by my announcement I am a candidate for County Judge, I have concluded to make the race after having been solicited by good men in almost every locality in the county. You will remember I was a candidate four years ago and was beaten in the primary. I took my defeat in the best of humor, like every good Democrat ought to do, and I did what I could for the man who beat me. Now I enter the race in the primary believing that should I get the nomination I would be a strong man to make the race in the final election, and I also believe that should I be elected I could and would make all the people a good and safe County Judge.

I earnestly solicit the support of all the Democratic voters in the county.

Very truly yours,
(Adv.) M. G. BERRY.

Manila Philippine Island Feb. 25. J. C. JOHNS, Louisa, Ky.

Dear Father:—From looking over the announcements of candidates in the Big Sandy News I find that Robert Thompson is a candidate for County Court Clerk. If this boy is the Robert, son of Judge Thompson, of Horseford, Ky. I wish you would do all in your power in aiding him to secure the nomination. I was in school with Thompson in 1905 and always found him to be an honest boy and the most apt student in school, I have very little faith in any man's Democracy or religion who are able in body and possessing their natural limbs, that would make a race against a cripple or even vote against one such men might learn a great lesson from Joe Burchett, of near Torchlight, Ky., who moved into the woods on a branch and on leased land cleared up a farm and when I left Kentucky he had money in the bank at Louisa, good team of mules, cattle, hogs and poultry and living as bountiful as Paul in his days. Send the Big Sandy News it is more company to me than any letter. Write often.

Your son,
TAYLOR V. JOHNS.
